TropicPRO

From heatwave to comfort in just 10 minutes.

Midea has set new heights for performance in T3 condition and the lineup delivers one of the best experiences in terms of cooling.

Non-stop performance at 60°C

Keeps 100% cooling capacity at 36°C

Cools down from 30°C to 24°C in 15 min

Prime Guard

Designed to perform in dust, heat, and humidity.

Prime Guard conquers humidity, voltage fluctuations, and dust cutting wear & tear and ensuring reliable performance in all climates across Pakistan.

Corrosion Area <0.02%

Rating Number 9.8

Verified by **Intertek**
Test Quality Assured.

Dust-proof

Reverse fan rotation cleans out dust and sand for consistent performance, even in harsh conditions.

Low Voltage

Stable performance across extreme voltage fluctuations, from 80V to 265V.

Graphene Coating

2 layers of coating - Fin + Evaporator (U-bend coating)

UV Conformal

UV-protected electronics designed to withstand time, moisture, and harsh conditions.

MIDEA AC UPGRADES

EASY TO CLEAN

EASY TO INSTALL

EASY TO MAINTAIN

SMARTHOME

One app. Total control.

The all-in-one App enables effortless remote control, voice control and receiving smart notifications allowing to easily connect, monitor, and control smart ACs from Midea, anywhere, anytime.

Energy Usage Monitoring

Track energy usage with weekly, monthly, and yearly reports, including target setting and threshold alerts.

Cooling/Heating Forecast

Provides an estimated lead time for reaching set temperature.

Sleep Curve | Energy Management | LBS

SURPRISE MOMENTS

AI ECOMASTER

Smarter cooling, lower power bills.

More than 71%

Energy saving compared to non-inverter air conditioner.

Extra 30%

Energy saving when compared to the energy consumption before engaging AI.

± 0.3°C

Precise indoor temperature control based on set temperature.

 MASTER GIGA DATA

 MASTER PRECISE CONTROL

 MASTER COMFORT SAVING

SPACE  MASTER

SMART  HOME

AIR  MAGIC

SPACEMASTER

Service-friendly design that saves time.

Makes both installation and service easy by providing larger space to work and more possibilities in installation.

High Compatibility

Maximum piping: 30m horizontal/15m vertical; minimum 5cm indoor ceiling clearance.

Exclusive Structure

Expanded piping space (204mm) with rapid access to PCB and fan motor for faster servicing.

airmagic

Self-Cleaning inside. Fresh air outside.

Using high-temperature steam sterilization and millions of ions to neutralize bacteria and viruses, it purifies itself and air inside the room, reducing allergies and discomfort for children and elders.

Enhanced Self-Cleaning

Evaporator followed by up to 56°C high temperature steam sterilization.

Dual Negative Ions Generator

allows 99.9% sterilization of Staphylococcus aureus, H1N1 & E.Coli.
